

## **It's Got to Be a Miracle**

Song by Kim Weston and Marvin Gaye

Songwriters: Sylvia Rose Moy / Vernon O Dell Bullock / William Mickey Stevenson

Source: [LyricFind](#)

All it takes is two hearts that care  
Sprinkle just a little tenderness there  
And like the tiny grains of sand that build a mountain so high  
Each tender moment builds love between a girl and guy

It's got to be a miracle, this thing called love  
Never, never, never let go, this thing called love  
Take a boy like you and a girl like me  
Two lonely people we used to be  
We shared a little time, tears and laughter  
It seems that we will be happy ever after

All it takes is two arms that know  
They gotta hold you, baby, and never let go  
Throw in a lover's quarrel and it's sealed with a kiss  
We know that heaven must be like this

It's got to be a miracle, this thing called love  
Never, never, never let go, this thing called love  
I used to wander, I used to roam  
Like a ship in a stormin' sea, tryin' to get home  
When we found each other, Heaven found a way  
'Cause you were the dawn of a bright sunny day

Ooh yeah (ooh baby)

All it takes is just a little time  
3 little words, baby, that mean, "Will you will be mine?"  
Add a few tears two lovers will shed  
And every sweet word that's ever been said

It's got to be a miracle, this thing called love  
Never, never, never let go, this thing called love  
Take a girl like me and a boy like you  
Long lonely hours we once knew  
We have each other and live what life's worth  
All love is strong enough to move heaven and earth

Yeah, yeah, ooh (baby)

It's got to be a miracle, this thing called love  
Never, never, never let go, this thing called love  
Ooh, it's got to be a miracle, this thing called love  
Never, never, never let go, this thing called love  
Ooh, it's got to be a miracle, this thing called love
