

## Whole Lot of Shakin' in My Heart (Since I Met You)

### [The Miracles](#)

Songwriters: Frank Edward Wilson

Source: [LyricFind](#)

Ooh, yeah  
I can't explain the things you do to me  
But I'm sure there's an explanation or  
Maybe it's the way that you carry yourself  
Or maybe it's your conversation  
Ooh, you've got me tiptoein' on a cloud  
I pray that I might fall through  
And hit rock bottom, soon to be forgotten  
Like so many other people do

I need you to help me convince myself (oh oh oh, I love you)  
That besides me there's no one else (oh oh oh, I love you)

'Cause I, (I feel) I feel a whole lotta shakin' in my heart (in my heart) since I met you, girl  
Don't you know I, feel a whole lotta shakin' in my heart (in my heart) since I met you?

The guys I used to run around with  
Tell me I've changed, that I'm acting kinda strange  
But they don't realize that since I met you  
My whole life has been rearranged  
Ooh, you make me feel kinda insecure  
'Cause my heart, I can no longer control  
And you've got me knockin', jumpin' and stoppin'  
Don't know which way I'm supposed to go

My heart is all tied up in knots (oh oh oh, I love you)  
I walk around daily in a state of shock (oh oh oh, I love you)

'Cause I (whole lotta feelin' of lovin' in my heart since I met you, girl)  
Don't you know I got a feelin' (there's a whole lotta feelin' of love in my heart since I met you?)

Whole lotta feelin' of love in my heart since I met you, girl  
There's a whole lotta shakin' goin' on in my heart since I met you

Now my heart is all tied up in knots (oh oh oh, I love you)  
I walk around daily in a state of shock (oh oh oh, I love you)

'Cause I (whole lotta feelin' of lovin' in my heart since I met you, girl)  
There's a whole lotta shakin' goin' on in my heart since I met you, you, you  
(You know what?) a whole shakin' goin' on (shake me up, yeah) in my heart since I met you, girl  
(Yeah, you makin' me shiver, ooh, you makin' me shiver) There's a whole lotta shakin' goin' on  
In my heart since I met
